PROFESSIONAL EXPERIENCE

Michel Many Ltd

Senior Software Engineer / Independent Contractor

Nov 2023 - Present | Madrid, Spain | Remote: UK, Europe & US

Senior engineering and technical consultancy through B2B engagements, delivering customer-facing applications and enterprise platforms.

SELECTED CLIENT ENGAGEMENTS

Human Made | Senior Web Engineer | Feb 2026 - Present

- **Skyscanner:** Delivered React / TypeScript and WordPress features, interactive and Lottie-powered UI, localisation tooling, accessibility improvements and reusable components across 25+ markets.
- **AGBI:** Delivered frontend and backend product features, performance improvements, WordPress editor optimisation, content migrations and platform maintenance.
- **News UK:** Contributed to the architecture and full-stack development of a proprietary video platform, including frontend interfaces, video player functionality, API integrations and backend services, within an Agile team.

Fueled | Senior Engineer, Web Applications | 2026

- **Goosehead Insurance:** Built and shipped complex customer-facing features with React, TypeScript and modern frontend technologies in a distributed product engineering team.

Medico Digital | Senior Frontend Engineer | 2025 - 2026

- Developed healthcare and pharmaceutical websites and applications using React, Astro, TypeScript, Tailwind CSS, GraphQL and headless CMS, focusing on performance, accessibility and reusable UI.

OWN PRODUCT - MADTICKET

Creator & Full-Stack Engineer | madticket.es

- Designed, built and launched a SaaS ticketing platform serving **over 1,000 users**, using Next.js, TypeScript, PostgreSQL, Prisma and Stripe.

Michel Moraes

Senior Software Engineer | Experience & Qualifications

EARLIER PROFESSIONAL EXPERIENCE

Syde GmbH | Senior Fullstack Engineer

Nov 2021 - Nov 2023 | Germany | Remote

Built enterprise WordPress platforms for clients in finance, healthcare and education. Developed React / TypeScript Gutenberg blocks, namespaced PHP plugin architecture and service containers, enterprise API integrations and custom admin features. Contributed to PHPUnit / Playwright testing, CI/CD, architecture reviews and technical mentorship.

TEAM LEWIS | Senior Frontend Engineer

Dec 2020 - Dec 2021 | Madrid, Spain | Hybrid

Built interactive digital experiences with Vue.js, Next.js, TypeScript and React, including real-time features and animation with Three.js and GSAP. Collaborated across teams on accessibility, performance and continuous delivery.

Logic London | Lead Frontend Engineer

Jun 2019 - Dec 2020 | London, UK | Hybrid

Led technical planning and frontend delivery across multiple projects using Next.js, Vue.js and React. Integrated WordPress REST API, Contentful and Strapi through REST and GraphQL, built reusable frontend architecture and coordinated cross-functional teams and backend / DevOps integration.

Simplicity Partners | Full Stack Web Developer

Jul 2016 - Jun 2019 | London, UK | Hybrid

Delivered applications and websites for finance, technology and consulting clients using PHP, Laravel, React and Vue.js. Built custom WordPress themes and plugins, modular Umbraco components, API integrations and database-backed features.

NITDESIGN Creative Studio | Fullstack Web Developer

Jan 2010 - Jun 2016 | Niteroi, Brazil | On-site

Led design and development of websites and systems for education, legal and local business clients. Built custom WordPress themes and plugins with object-oriented PHP, frontend interfaces with HTML, CSS, JavaScript and AngularJS, and MySQL-backed content platforms.
